

CURRICULUM VITAE OF

ANGELA VOLPE

PERSONAL INFORMATION

Nationality: Italian

Date of birth: 24/01/1966

Office Address: Via F. De Blasio, 5 - 70123 Bari - Italy

Office Phone: +39 080/5820502

E-mail: angela.volpe@ba.irsa.cnr.it

EDUCATION AND TRAINING

- 1994 University of Bari (Italy): MS Degree in Chemistry. Thesis in organic chemistry "*Regio- and stereoselective synthesis by means of organometallic compounds*".
- 1995 CNR, Centro di Studio sulle Metodologie Innovative di Sintesi Organiche (Bari): Nine months research grant. Research topic: Synthesis of biologically relevant organic compounds.
- 1996-1997 University of Bari: attendance of Chemical Sciences PhD course (1st and 2nd year). Research topic: Synthesis of biologically and technologically relevant organic molecules by means of organometallic compounds.
- 1998 Karlsruhe Research Center (Germany) – Institute for Technical Chemistry, Water Technology and Geotechnology Division. Visiting researcher for two months, studying the application of mathematical models to the description of ion exchange equilibria.

PROFESSIONAL EXPERIENCE

Since 09/1997: CNR, Istituto di Ricerca Sulle Acque (IRSA), Department of Bari: Full time researcher. Research activity:

- 1997-2001 Removal and recovery of heavy metals from industrial wastewater through the application of selective materials and chemicals (reactive polymers and biosorbents). Theory of processes at solid-liquid interface and environmental fate of persistent pollutants.
Analytical techniques for the detection of trace pollutants (Atomic spectroscopy, gas-chromatography, mass spectrometry).
- 2002-2003 Dehalogenation of chlorinated organics by means of zero-valent iron. Application of chemical reduction processes to groundwater remediation.
- 2004-2006 Bioremediation of groundwater contaminated by chlorinated solvents and MTBE. Biodegradation technologies for the cleanup of contaminated sites.
- 2007-2009 Application of *landfarming* techniques to the bioremediation of hydrocarbons in soil. Analytical methods for high molecular weight hydrocarbons in soil samples.

PARTICIPATION TO RESEARCH PROJECTS

- 2004-2006 *AQUATEC* Project, funded by the Italian Ministry of University and Scientific Research (MIUR). Study of groundwater bioremediation and application of bioremediation processes to an industrial area located in Southern Italy.
- 2007-2008 BDT - Banca dati tossicologica del suolo e prodotti derivati, Regional Project. Bioremediation of hydrocarbon-contaminated soil.

TUTORING AD TEACHING

Tutoring activity in a postgraduate advanced course on the subject: "Bioremediation of contaminated groundwater", held at CNR-IRSA in the frame of the *AQUATEC* project.

Supervisor of research grantees working in the field of bioremediation of contaminated groundwater and soil.

Teaching in professional training courses in the field of water treatment and analysis.
